

BRILLIANT EXTERIOR  
SURFACE CLEANING

# control

Code 150-008

---

## Permanent - porous surfaces

Control Permanent - porous surfaces is a solvent-borne treatment which gives hydrophobic and lipophobic properties which provide high levels of protection and ease of clean to porous surfaces which are typically extremely difficult to maintain. It reacts chemically to the surface and becomes part of the surfaces giving permanent protection.

- Suitable for all porous-type substrates
- Does not alter the original appearance of most substrates
- Permanent Treatment (minimum 5-year protection) – no need to re-apply
- Anti-graffiti protection – provides protection against spray paint, leather dye, magic marker and most other types of external graffiti

### Specification

---

<b>Drying time</b>	1 to 3 hours
<b>Full cure</b>	48 hours
<b>Coverage</b>	50 ml to 250 ml per m <sup>2</sup> (depending on the surface)

### Method

---

Non-specialist application requirement – spray application

Always test a small inconspicuous area to check for surface compatibility.
