Biological Degreaser

Delete Biological Degreaser is a safe and environmentally friendly degreaser designed to remove petroleum based oil and grease stains on porous surfaces such as concrete, stone, asphalt and soil.

- Biodegradable
- Uses micro-organisms and micronutrients
- Excellent degreaser
- Cleans oily paint, equipment, vehicles and tools
- Hydrocarbon solvent free

Limitations

- n/a

Specification

Appearance	Opaque liquid
Colour	Cream
Odour	Mild
pH	8.5 to 9.0
S.G	1.00 to 1.02

Dilution

For light stains, dilute 1 part to 20 parts water

For medium stains, dilute 1 part to 10 parts water

For heavy stains, dilute 1 part to 5 parts water

For after spraying, dilute 1 part to 40 parts water

Method

1. Apply to the surface by mop, machine or by hand
2. Rinse away, or pick up emulsified soil with a wet pick-up vacuum
3. Rinse with clean water
4. Alternatively, for imbedded stains, spray the surface and leave without rinsing

Always test a small inconspicuous area to check for surface compatibility.
