

BRILLIANT EXTERIOR
SURFACE CLEANING

delete

Code 150-005

Shadow Remover

Delete Shadow Remover is a powerful caustic product that has been designed to remove residual shadowing following initial graffiti removal processes. It can be used on brick, masonry and concrete.

- Removes graffiti shadows
- Designed to be used on vertical surfaces
- Low odour
- Slow evaporating

Limitations

- Cannot be used on painted surfaces, zinc, aluminium or glass as it will damage these substrates

Specification

Appearance	Viscous liquid
Colour	Pale yellow
Odour	Mild
pH	>14 (caustic)
S.G	1.14

Dilution

Use neat. No need to dilute.

Method

1. Apply to the surface using a brick cleaning brush or alkali resistant brush.
2. Work well into the surface and keep agitating with a brush. Keep wet by applying more product if necessary. Do not allow to dry.
3. Rinse the surface using a high pressure cleaner with as much pressure as the surface can tolerate. Hot water will improve the results.
4. Thorough rinsing is essential.
5. If shadowing remains, repeat the process.

Always test a small inconspicuous area to check for surface compatibility.
