Masonry Cleaner

Delete Masonry Cleaner is an quick-acting alternative to acid for cleaning brick, tiles and concrete. It is safe to use on and near metal surfaces.

- Low odour
- Replacement to acid cleaners
- Removes mortar and concrete smears
- Removes rust and limescale
- Safe on glass and metal

Limitations

- n/a

Specification

Appearance	Thin, mobile liquid
pH	0.5 to 1.5
S.G	1.13 to 1.15
Solids	42 to 44%

Dilution

Use neat or dilute up to 1 part to 3 parts water (25% v/v)

Method

1. Wet the surface before cleaning
2. Apply to the surface using a brush or by spraying
3. Scrub the surface with a brick cleaning brush
4. Leave for 3-5 minutes, then agitate again with a brick cleaning brush
5. Rinse with water - a high pressure rinse will deliver better results
6. Ventilate the area if using indoors

Always test a small inconspicuous area to check for surface compatibility.
