Graffiti Cutting Paste

Delete Cutting Paste is an abrasive polish that removes graffiti from non porous surfaces. It also renovates scratched and dulled painted surfaces, leaving a high gloss finish.

- Simple and convenient to use
- Controlled cut
- Easy to control and clean up due to high viscosity
- No hydrocarbon oils or solvents

Limitations

- Can be time consuming on large areas

Specification

Appearance	Opaque gel
Colour	White
Odour	Mild
pH	6 to 8
Viscosity	25,000 cgs

Dilution

Use neat. No need to dilute.

Method

1. Apply a small amount onto a microfibre cloth.
2. Agitate into the surface in a circular motion.
3. Take caution not to cut the surface back too far.
4. Polish dry with a clean microfibre cloth.
5. For larger areas, buffing machines can be used. Follow machine supplier's guidance.

Always test a small inconspicuous area to check for surface compatibility.
