Gel Graffiti Remover

Delete Gel Graffiti Remover is a safe gel graffiti remover designed to cling to vertical surfaces. It removes spray paint, marker pen and dye-type graffiti. It is ideal to use on most hard non-porous surfaces.

- Gel properties provide controlled application and enables it to cling to vertical surfaces.
- Quick acting and efficient.
- Low odour.

Limitations

- Not suitable for polycarbonate and some plastics
- Lower air temperature will reduce effectiveness

Specification

Appearance	Clear viscous liquid
Colour	Colourless to pale yellow
Odour	Mild solvent
S.G	1.025 - 1.045
Viscosity	7,500 cgs

Dilution

Use neat. No need to dilute.

Method

1. Apply the gel to the surface using a brick cleaning brush, airless sprayer or roller.
2. Agitate into the surface.
3. Allow to dwell for 15mins. Longer dwell time may be necessary in colder temperatures.
4. Rinse the surface using a high pressure cleaner with as much pressure as the surface can tolerate. Hot water will improve the results.

Always test a small inconspicuous area to check for surface compatibility.
